Subject: UK National Stem Cell Network (UKNSCN) Interim Bulletin - Supplement to Bulletin 21

Attachments: StemCellClub2010.pdf

Dear Colleagues,

UKNSCN INTERIM BULLETIN - SUPPLEMENT TO BULLETIN 21 (TWO ITEMS)

As a supplement to last week's formal UKNSCN Bulletin (No.21), you are invited to note a further event taking place in early November and also Cancer Research UK's Stem Cell Club Meetings for 2010.

1] SCOTTISH STEM CELL BIOLOGY GROUP MEETING, DUNDEE, 9TH NOVEMBER

Sponsored by the Scottish Stem Cell Network (SSCN), the next meeting of the SSCN's Stem Cell Biology Group will take place at the University of Dundee in Scotland on **9th November 2009** and is titled *Approaches to Directed Stem Cell Differentiation and Disease Models*. The meeting programme includes two overseas speakers: Knut Woltjen from the Mount Sinai Hospital in Toronto, Canada and Henrik Semb from the Lund Stem Cell Centre in Sweden. Fees apply for non-members of SSCN and further details are available from Jenna Chambers (jenna@ssc.co.uk) or via the link below.

[Further Programme Information and Registration](#)

2] CANCER RESEARCH UK STEM CELL CLUB MEETINGS 2010 (LONDON)

Please view the attached PDF which provides details of the two-monthly *Stem Cell Club* meetings organised by Dominique Bonnet at Cancer Research UK's London Research Institute. The six dates for 2010 have now been set, and anyone can attend or offer to present at these meetings held in London. However, please note that the 'club' is aimed primarily at young investigators and young group leaders who are establishing their laboratory. The remit of the club is wide, covering basic and applied research involving all types of stem cells.

Yours sincerely,

Ben Sykes
Executive Director, UKNSCN
